Prince George's County

MYTH:

I could get sick with COVID-19 from the vaccine.

COVID-19 VACCINE

MYTH **VS** FACT

FACT:

None of the COVID-19 vaccines currently authorized in the United States use the live virus that causes COVID-19. The goal for each of them is to teach our immune systems how to recognize and fight COVID-19. Sometimes this process can cause symptoms, such as fever. These symptoms are normal and are a sign that the body is working to protect you and build immunity.

Proud  *to be* **PROTECTED**
Prince George's County
